

BIB CARE INSTRUCTIONS:

Machine wash cold.

Initial water temperature should not exceed 30C or 65 to 85F.

Iron Low.

Regular ironing, steam or dry, may be performed at Low setting (110C, 230F) only.

Do Not Bleach.

No Bleach product may be used.

The garment is not colorfast or structurally able to withstand any bleach.

Tumble Dry normal, No Heat.

A machine dryer may be regularly used at a maximum of Low heat setting.

Do Not Dry clean.

Garment may not be commercially dry cleaned.

Tips & Tricks:

- Wash, dry and iron (if needed) with the garment inside out.
- Avoid direct contact with velcro and other abrasive materials.
- Should a snag develop, try to grasp the fabric in all 4 areas around the snag and stretch it to coax the thread back into position.
- Pilling can be fixed by using a fabric shaver. Lay the bib flat on an ironing board and run the shaver in small circles until the pills are removed.
