SPM Children's Ski School Spaces

Created in conjunction with the Italian Federation of Ski Instructors, the SPM "Kindergarten" concept focuses on learning through play.

Introduced at the Interski 2015 ski instructors conference in Ushuaia, Argentina, these products can be used in a variety of combinations to teach children the fundamentals of moving on snow. The process begins with movement on flat ground with and without skis. The students then begin to straight line gliding and braking skills on a gentle pitch. The third phase is changing directions, first in a wedge and then progressing to direction change with parallel skis. Finally, the basics of racing and freeskiing are introduced.

Unique to the SPM/FISI concept is also the use of team play and group activities. Having students play familiar games in a group setting allow them to interact together and learn almost intuitively through play. In ski boots, using one ski, or two skis, the games can be changed adding or reducing the challenge based on the group.

Three Kindergarten packages are available by special order in small, medium and large options for your convenience. Easy to maintain and organize, the only limitation is your creativity on creating these colorful, fun and safe spaces to learn. Many of these innovative products can be customized with your resort or ski school's branding as well.

Ski School Learning Mats

Introduced by SPM at Interski 2015 in Ushuaia, Argentina, these innovative tools for teaching children fundamentals of movement on skis have been widely adopted in European ski schools. By following the "footsteps" on these durable, colorful teaching mats children will learn walking, side stepping and herringbone techniques for moving on snow. The mats are held in place by plastic stakes (included) and can be configured several different ways in conjunction with other learning aids such as Fungos and Whisker gates. Create a fun and intuitive teaching environment that helps each child discover the joy of skiing. Mats are each 16.5' L x 3' W. Made in Italy.

Number	Product Name	Price
SSM 100HB	Herringbone	\$195.00
SSM 100FF	French Fry	\$195.00
SSM 100WLK	Walking	\$195.00
SSM 200	Ground stakes (set of 8)	\$11.95
