World Cup Supply Athlete Update...

Tara Geraghty-Moats: Multi talented Tara has competed at the international level in Nordic jumping, biathlon and most recently in women's Nordic combined, where she is challenging herself to win a world cup title. Tara is a multi-time medalist in Junior Nationals for cross-county skiing and was on the biathlon junior world Championship team and junior national team from 2011-2014. Her ability in jumping was clear when in 2017 she became the US National Champion on the normal hill. Her previous national title in biathlon further establishes this Vermonter as a real threat in Nordic Combined.

Mollie Jepsen: At the 2018 Paralympic Winter Games in Pyeongchang, Whistler, BC native Mollie Jepsen won four medals...gold in the super combined, silver in slalom, and bronze in both downhill and giant slalom. Entering the games, Jepsen was a triple medalist at the World Cup Finals in Kimberley, British Columbia where she also won the IPC Crystal Globe in Super G. As well as competing on the IPC World Cup circuit, Jepsen pursues her career skiing for Sugar Bowl Academy in Norden, CA.

Thomas Walsh: US Paralympic athlete Thomas Walsh trains and lives in Vail, CO. Named to the US team for the Korean games in 2018, Thomas finished 5th in slalom, 7th in GS and 13th in Super G at his first Paralympics. At the World Championships in 2017 he was 10th in Super-G. Graduating from GMVS in 2013, Thomas is already a multiple world cup winner starting on the IPC tour with the US team in 2015. He furthered his education by attending the Savannah College of Art & Design.

5PM 7cm & 5cm B-Net

B-Nets from SPM set the standard for quality and durability in alpine racing, resort and terrain park safety systems. SPM B-Nets feature a knotted mesh made of 3.5mm polyethylene twine treated with UV inhibitors.

SPM's Light B-Net with 7cm mesh is an economical safety solution when paired with SPM's Light B-Net poles, and weighs 34% less and is 30% less expensive than the 5cm. From U12 to FIS, SPM's "Light" B-Net is used for tech events and as a first line in multiple row set-ups for speed events. The Light system is perfect as a last line for tubing hill run outs as well as spill zones in terrain parks.

SPM's 5cm B-Net is also available in 20m x 2m sections and features the same 3.5mm twine as the Light B-Net. Rugged enough for the World Cup's most renowned venues and critical competitions, these nets will stand the test of time and help keep your athletes safe. 5cm B-Net systems with 10 Standard B-Net Poles are suitable for all levels and disciplines of alpine ski racing.

SPM's Short 5cm B-Net at 1.3m high is available in two lengths (15m/25m) and designed for use in tech events. The reduced height provides spectators and photographers a better view without sacrificing safety.

All SPM B-Nets come with an ID Tag that provides the date of purchase allowing for accurate aging and inventory management.

Number **Product Name**

NE 186 SPM Light B-Net, $2m \times 20m$, 7cm Mesh, Red**NE 185S** SPM Standard B-Net, 2m x 20m, 5cm Mesh, Red

NE 185ST15/NE 185ST25 SPM Short B-Net, 1.3m x 15m OR 25m, 5cm Mesh, Red

SPM Polycarbonate B-Net Fence Poles

SPM's 35mm diameter B-Net fence poles are now available in three models: Standard, Light, and Short. Standard B-Net Poles have a 4mm wall thickness while the Short and Light B-Net Poles have a 2.5mm wall making them 'softer' on impact. The Standard pole is most often paired with the SPM's 5cm B-Net while Light poles are usually paired with 5cm B-Nets. The fluorescent color of Light poles makes net type ID easy. SPM's unique premium polycarbonate formula is strong enough to effectively support the weight of the B-Nets under heavy snow loads and high speed impacts, unlike scored shear poles, and are designed to decelerate an athlete with-out breaking by flexing and releasing from the snow.

Each pole includes two rounded nub points along with two easy to use patented, energy absorbing, self-locking adjustable cam lever clips to secure the net to the pole. The 2.5m pole is designed for use with 2m high B-Nets and the 1.6m pole is paired with the Short 1.3m B-Nets.

ALL SPM B-Net poles now have minimum and maximum depth marks to assist with installation and ensure the system works as designed.

WCS Fence Roller

Eliminate the hassle of rolling B-Net and other fencing with the WCS Fence Roller. This ingenious device allows you to roll any type of B-net or fencing tighter and faster meaning better storage, less fatigue and easier installation. The two piece construction allows for easy transport, assembly and storage when not in use. Made from channel and square aluminum tubing with steel reinforcements.

Fork attachments/handles (for groomer/fork transport) included. 100lbs. 79"L x 29"W x 34"H

5pm Platinum

Platinum gate shafts set the new standard for durability with 2017/18 season shaft breakage rates 30% lower than the Gold line. Improved raw materials equals improved quality, performance and better value.

Junior 27 gates make the transition to full-sized gates easier while developing proper technique and tactics. The 60" off the snow height is U.S. Ski & Snowboard recommended for U14 and under age classes and is the required height for U.S. Ski & Snowboard U14 Championships. Junior 27 gates feature SPM's patented Gold 27mm diameter shaft with a panel height mark, a durable poly-cord hinge, hi-vis protection sleeves and your choice of BrushGrip™ or Snow Grip bases in two lengths: 26cm or 34cm. Shaft length: 56"; Height off the snow: 60"; Weight: 1.5lbs

Product Name 1-39

SPM PC 30/S Gates

SPM PC 30/Static Gates are the preferred choice for outside, non-turning gates in PGS and Cross events. The polycarbonate will not shatter and increases safety in crash situations while enhancing the poles' overall durability. These poles are also great for posting signs, banners, and flags or for elevating timing cables and wires. SPM PC 30/S non-hinged gates feature a capped 30mm diameter shaft, and a lightly threaded 20cm stick-in base. Overall length: 87"; Weight: 1.6lbs

"The Hi-Vis gates are great for night training. They seem to have a glow to them and stand out really well and add a degree of consistency in variable and low light conditions that are common in night sessions. Our kids also have an easy time finding our lane in multiple group training environments." - Tony Olin

SPM World Cup Safety Panels ***

World Cup Safety Panels are made of a vented, wind permeable mesh soft nylon fabric with 2" side sleeves with tapered bottom openings and can be imprinted on one or both sides. Elastic straps with two webbing pull tabs make installation easy even with gloves on and hold the panel firmly in place on both 27mm and 30mm gate shafts yet release under normal skier impact. F.I.S. Homologated and U.S. Ski & Snowboard approved.

Custom imprinting available. Dimensions: 20" x 30"; Weight: 0.25lb

Laser Rangefinder

WCS offers two laser rangefinders to help accurately measure distances on the hill.

The value priced **Bushnell Prime** rangefinder is hairsplitting accuracy made simple. An in-view LCD display provides the exact distance to your target from 10 to 600 yards with the tap of a single button, with 4x magnification and bright, crystal-clear optics. It has an efficient, compact vertical design and weather-resistant housing. This light and affordable unit is ideal for setting GS and speed courses.

The **Bushnell Elite 1 Mile ARC** is a state of the art rangefinder with ½ yard accuracy from 5-1760 yards. Features include 7x magnification with diopter adjustment, a rugged waterproof housing and a built in tripod mount. This is perfect for those that need a more accurate and longer distance measuring tool for planning A-net projects, B-Net estimation and venue development. Ideal for TD's and course inspectors.

Orange Fox Drill Bits 2.0

The Orange Fox Drill bits that set the standard for value, performance and weight have been improved and feature a newly designed, replicable tip, a traditional ribbon flute for more efficient snow removal and are even lighter than the original Orange Fox bits at a lower price. So yes, a good thing can get even better! WCS is proud to be the exclusive US distributor of the latest version of these awesome bits. WCS is proud to offer a life-time warranty on the bits for breakage due to normal wear and tear.

WCS/Maier Aluminum Ribbon Drill Bits

Our new Aluminum Ribbon Drill Bits from Maier are the ideal tool for both Mountain and Lift Ops use. Durable, light and essentially bullet-proof, they feature a long lasting anodized distinct green finish, a strong single carbide tip, ribbon like spiral flutes, and will stand up to the everyday abuse that on-hill work demands. The replaceable .5" beveled shank fits in most cordless drills. Overall length: 51cm (20"). Imported and a WCS exclusive.

SPM Start Facade

WCS Mesh Start/Finish Banners

Custom Horizontal Finish Banners Available.

Start Façade

Make your race start look like Wengen, Beaver Creek or any other WC start with SPM's new Start Façade. With a frame constructed of SPM's polycarbonate banner frame poles (32mm dia.) and PVC elbow and T-connectors along with panels made out of SPM's wind permeable panel fabric your start will be the envy of every club that visits your hill. Two red vertical panels (180cm x 60cm) with START vertically imprinted in white are topped by the 230cm x 80cm horizontal top section. Customize the horizontal section with your team, club, and sponsor logos in white. The Start Façade will fit nicely in front of our WeatherPort Start House and can even be installed as a standalone. Dimensions: 118" x 90.5" Price does not include vertical banner imprinting. Call for customization options and pricing.

Custom Printing Available.

SHURFLO® Battery Powered Backpack Sprayer

The SHURFLO®, SRS 600 Rechargeable Electric Backpack Sprayer features a 4 gallon (15L) polyethylene tank and can spray up to 120 gallons (454L) on a single charge thanks to the self-contained 12V, 7.0A battery. The battery fits neatly into the back of the sprayer and is easily removed for recharging. The 12 VDC pump has a max output of 1 gallon per minute and features variable speed settings that complement the adjustable nozzle for consistent dye application. Padded shoulder straps and a full back pad compliment the ergonomic design of the back of the tank, while a padded waist belt helps evenly distribute the weight of a filled tank.

SNOW MANAGEMENT

Snow Scoop Shovel

This versatile, scoop-style shovel is made of heavy gauge aluminum with a 29" long hardwood handle. The scoop measures a generous 19" L x 15.25" W, making it an efficient snow removal tool.

Number	Product Name	Price
RA 118	Snow Scoop Shovel	\$60.80

Poly Scoop Shovel

This is an excellent and economical scoop shovel — strong and light. The rugged high-grade poly scoop is 19" L and 15.25" W and it features a durable 27" long fiberglass handle with a poly D-grip handle. A must have for the serious course worker or Mountain Ops professional!

Number	Product Name	Price
RA 123	Poly Scoop Shovel	\$52.50

Square Deal Shovel

This shovel's square point blade measures 9"W x11.5"L and is forged of heavy weight 14-gauge steel and solidly mounted on a 48" hardwood handle for strength. Great for removing race course ruts and hard snow and ice shoveling. Custom handle lengths available.

Number	Product Name	Price
RA 117	Square Deal Shovel	\$35.70

Rut Buster Rake

Features a 24" wide blade with .5" sharp, serrated teeth on one side and a straight edge on the other. This dual purpose rake has a 66" handle and is ideal for smoothing and spreading soft snow as well as scraping down ruts and hard snow surfaces. Goliath bracing (wrap-around and gusset) makes it sturdy and durable – rugged enough for the most grueling race conditions!

Adaptive Skier/Rider Identification Bibs

In stock and ready to ship, these Hi-Vis identification bibs for visually impaired athletes and their guides are printed on both sides. Based on our current open sided freestyle bib, this version is made out of the same two way stretch polyester fabric used in all of our winter-sport bibs in fluorescent orange or yellow with elastic side closures to ensure a good fit over clothing. Great for individuals or an economical alternative to a custom bib for adaptive skiing programs on a budget. Call us for custom identification bibs as well. Dimensions: 22" x 22". Made in the USA.

WCS Gate Judge Apron

Race officials and athletes can distinguish gate judges from spectators with just a quick glance with WCS' Gate Judge Aprons. These oversized apron style bibs are made of bright yellow 600 Denier polyester with "Gate Judge" imprinted on the front and back in large black lettering for high visibility. WCS Gate Judge Aprons fit over ski helmets and feature long nylon ties at the sides to easily accommodate jackets of any size. Two large pockets easily fit gate keeper cards and clipboards while a smaller middle pocket keeps pens and pencils. Sorry, no hot chocolate or toe warmers included! Gate Judge Apron dimensions: 26"Lx20"W.

Nordic Ski Bibs

Ordering is easy!

- ► First, contact World Cup Supply We are happy to discuss pricing, sizes, artwork design, your deadline, and any other questions you may have. We will then provide you a custom order quote.
- ▶ Next, collect your artwork please provide vector files of desired logos.
- ▶ Now it's time to design. Determine your bib's design style colors, logos, names, numbers (Bibs may have varying names and numbers), burgee, and their placement. Since all of our bibs and pinnies are dye-sublimated you are limited only by your imagination. The design and number of colors or logos has no effect on the price of the bib. If you would like help or suggestions, please allow our in-house art department to assist you.
- ▶ The Approval Process: WCS will mock up your bib design and provide you with a pdf for approval. To make certain you are satisfied with the design we allow for two free rounds of revisions.
- ▶ Billing: WCS requires a 100% deposit before production can begin.

Please allow 3 weeks turnaround time for production.

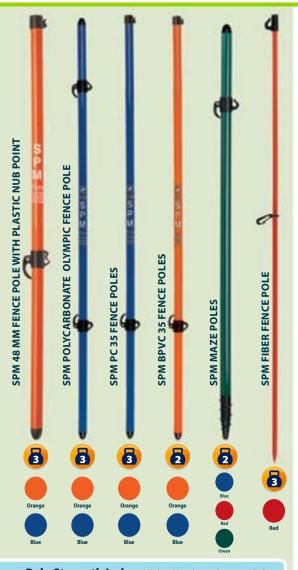

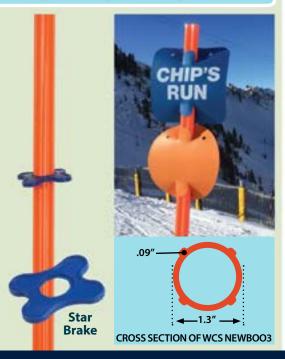

Pole Strength Index: Higher Number = Stronger Pole

5PM 48mm PVC Fence Poles

Made from SPM's specialized PVC plastic, these fence poles are perfect for hanging event fence, supporting willy bags, air pads and anything else that requires more substantial support. SPM 48mm Fence Poles feature a thick, 4mm wall with 8 internal ribs that improve stiffness and durability. Available in blue and orange. Dimensions: 63" tall x 48mm

Includes one adjustable cam clip and one fixed upper clip and a nub point.

1-39 40-199 200+ SPM 48mm Fence Pole, Nub Point \$28.05 \$26.05 \$25.05 (BP 186-Orange, BP 191-Blue)

5011 Polycarbonate Olympic Fence Pole

Made from SPM's superior polycarbonate plastic, each 35mm pole includes two nub points and two self-locking adjustable clips. Available in blue and orange. Dimensions: 63" tall x 35mm diameter.

Product Name 40+ SPM PC Olympic Fence Pole, 35mm \$20.90 \$19.90

(ME 300-Blue, ME 305-Orange)

5PM PC 35 Fence Poles

A junior version of the 48mm fence pole at 35mm dia. made out of stiffer polycarbonate. This pole is a solid solution for finish area fencing, rope and lift lines; pretty much the same uses as the 48mm pole at a lower cost. Available in blue and orange. Dimensions: 63" tall x 35mm diameter.

Includes one adjustable cam clip, one fixed upper clip and a nub point.

Product Name	1-39	40-199	200+
SPM PC 35 Fence Pole, Nub Point	\$15.55	\$14.55	\$13.55
(BPC 355OR-Orange, BPC 355BL-Blue)			

SPM BPVC 35 Fence Poles

At 35mm in diameter and molded from SPM's superior polycarbonate, the BPVC 35 is a junior version of our 48mm workhorse. The pole is a solid solution for finish area fencing, rope and lift lines. Includes one adjustable cam clip, one fixed upper clip and a nub point. Available in blue and orange. Dimensions: 63" tall x 35mm diameter.

Product Name 1-39 40-199 200 +\$13.00 SPM BPVC 35 Fence Pole, Nub Point \$12.00 \$11.00 (BPVC 350OR-Orange, BPVC 350BL-Blue)

SPM Maze Poles

SPM 35mm Maze Poles are specifically designed for lift mazes with efficiency and ease of use in mind. Made from splinter-proof polycarbonate these fence poles are strong and sturdy, they feature a lightly threaded base and clip system to support rope, tape or WCS banner mesh. Available in blue, red, and green. Dimensions: 58" tall x 35mm

Each pole includes one self-locking adjustable plastic clip.

Product Name 1-39 40+ SPM Maze Pole, 35mm \$18.10 \$16.10 (MP 100-Blue, MP 101-Red, MP 102-Green)

50M Fiber Fence Pole

This 15mm diameter, solid Fiber Fence Pole is strong and economical making it an invaluable pole for your resort. Made of fiber reinforced plastic with a pointed base, it features a top cap with hook and adjustable lower rubber ring with a plastic snap hook that makes attaching fencing material quick and easy. Available in red. Dimensions: 64" tall x 15mm diameter.

Number **Product Name** 1-39 40+ **BP 300** SPM Fiber Fence Pole, 15m, Red \$10.45 \$9.45

WCS NewBoo 3

WCS NewBoo3 is an attractive alternative to traditional bamboo with similar functionality that is readily available and more cost effective in the long run. It is perfect for marking discs, and marking hazards on or off the hill like snowmaking and fire hydrants or roadway markers for snow removal operations. At 7' tall, brightly colored fluorescent orange, WCS NewBoo3 stands out against the snow, clearly marking hazards and improving safety. External ribs add significantly to the strength of each pole. When compared to wood and bamboo, these poles offer a greater return on investment – lasting longer while performing safely and effectively. Made of a recycled plastic and polycarbonate blend and sold in bundles of 25 with 25 SPM Star Brakes to prevent sliding. Length: 84"; Wall thickness:.09"; Diameter: 1.3"; Weight: 1lb. Made in USA.

Product Name 1-10 BP 102 WCS NewBoo3 - Orange (25 per bundle) \$89.70 Call

Fabric Fence

The perfect sponsor or event fence! Fabric Fence is made from UV stabilized PVC vinyl coated polyester yarn, and remains flexible in extreme cold conditions (down to -40°F). Fencing is sold in rolls making it easy to transport, install, roll and store. Available in blue, red, green, yellow, black and fluorescent orange. Fabric Fence dimensions: 4' H x 150' L rolls. Custom printing available.

Save 10% when you buy a Fence & Pole Package!

Product Name 1-5 rolls 6+ rolls Fabric Fence, 46" tall x 45.7m 150' \$215.00 \$205.00 FF 100-Blue, FF 101-Red, FF 102-Green, FF 105-Black

\$220.00 FF 107-Fluorescent Orange

Made of UV stabilized 100% polypropylene, Tex Fence performs well in sub-zero temperatures, doesn't collect snow, dries quickly and doesn't fade. Rolls are constructed of .375"x .375" knitted squares with double reinforcement on top, middle and bottom edges for added strength. Available in red, blue, dark green and orange. Tex Fence Dimensions: 4' H x 150' L. (8' high rolls available by special order.) Made in

SPM C-Nets could be the most versatile and flexible netting system on your mountain. Designed to help control crowds, close trails, define hazards and separate training/public areas. Constructed from polyethylene cord with UV inhibitors to prevent deterioration, SPM C-Nets offer great visibility and durability and withstands windy, harsh mountain conditions. Available in blue and bright orange. Marking Net dimensions: 4' H x 82' L; .1" polyethylene cord with 4" mesh squares.

Save 10% when you buy a Fence & Pole Package!

Product Name Price C-Net, 48" x 82', 4" Mesh \$61.20

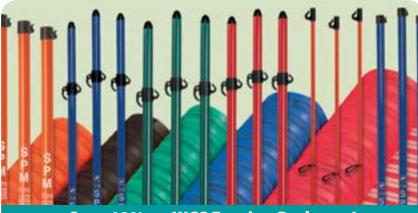

(NE 191-Blue, NE 192-Orange)

For slope and jobsite delimitation applications where visibility is critical, SPM wind fence is the perfect solution. These bright orange and yellow fences draw the attention of guests and employees and have more surface area than traditional marking net, yet remain permeable to wind. Available in two models: a "standard" roll of 4' x 164' net without poles as well as a 4'x 65' roll with PVC pockets for 8 fiber fence poles (included) for rapid deployment on the hill without needing a drill. Both are made of hand knotted polyethylene twine. Dimensions: 4'x 164' or 4'x 65'

Product Name Price SPM Hi-Vis Wind Fence, 4'x 164'

TRAIL CLOSED RACE TRAINING **IN PROGRESS**

WCS Mesh Trail Banners

WCS Mesh Trail Banners are made of wind permeable vinyl coated polyester mesh that resists tearing. Top and bottom edges are folded and double stitched for durability and provide a tighter, cleaner look. Two double stitched 3.75" side sleeves with two rugged grommets allow for a secure set up on your choice of poles. Custom messages, symbols, and graphics can be printed on any size or shape banner. Provide information, directions, or instructions to skiers with large format, highly visible on-hill banners. Our mesh trail banners are available in a wide variety of colors and can be custom designed with a simple finished edge with grommets, or made with top and/or side sleeves for installation on poles or banner frames. Brand your resort with coordinated mesh signage!

5011 Hi-Vis Mesh Barrier Tape

With more wind permeability than our standard barrier webbing, this attention grabbing, high visibility orange and yellow barricade mesh stands out to mark boundaries and perimeters. Made of lightweight weather resistant and waterproof materials, the hi-vis mesh tape is portable and easy to deploy on bamboo or fence poles. Dimensions: 164' x 6"

Number	Product Name	Price
BW 600	Hi-Vis Mesh Barrier Tape, 164' x 6"	\$46.50

Reinforced Flagging Tape

Our Reinforced Flagging Tape is specially designed for use in cold weather environments, made of vinyl coated nylon fabric with opposing strands of fiberglass pressed into the tape for strength and durability. The tapes weaves easily into any twisted rope and makes rope boundary and closure lines much more visible and safer. Sold by the roll of case in 1"W x 150'L. Available in Hi-Vis Lime and Orange.

Number	Product Name	Roll	Case(10)

FT 106	Reinforced 1" Flagging Tape – Lime Green	\$8.95	\$81.60

Rope/Webbing Reels

Make quick work of any rope line or barrier webbing with our Heavy-Duty Rope Reels. Available in standard (handheld) and deluxe (stand) models, both are sturdy yet light weight and feature handles that are easy to operate even with gloves on. The small, hand-held reel fits in most backpacks and can quickly be deployed on the mountain, holding 250' of 1/4" rope or 300 feet of 2" or 3" barrier webbing. The larger reel with stand holds up to 375' of 1/4" diameter rope or 500' of 2" or 3" webbing. Made in the USA.

Number	Product Name	Price
RP 600	Handheld Reel, Orange & Black	\$8.70
RP 610	Reel with Stand, Orange	\$10.45

Hollowbraid Rope and Twisted Rope

High quality, UV stable Hollowbraid and Twisted polypropylene rope will give you years of dependable service. All rope is rot/mildew resistant, will not kink, and comes on heavy-duty reusable plastic spools, making for easier deployment, pickup and storage. Hollowbraid rope is available in 1/4" and Twisted is available in two diameters 1/4" and 3/8". For more efficient rope use, also consider our WCS rope reels.

Loading Boards

Manage traffic flow and reduce lift lines with our durable polyurethane loading boards that allow skis and boards to easily slide over with little friction. Colored red for easy visibility, these boards are designed for both triple and quad chairlifts. Boards come with the text "WAIT HERE" or "LOAD HERE" in text recessed 1/4" into the board to allow snow to fill in the words for high contrast and better visibility. The triple chair boards are $53.25'' \text{L} \times 6'' \text{W} \times 2'' \text{H}$ and the quad chair boards $71'' \text{L} \times 6'' \times 2''$.

Marking Discs

These multi-use bright, high visibility discs are perfect for indicating hazards, defining trails, or race areas, or for use as directional markers. Unlike fluorescent marking discs or signs, WCS Marking Discs are made of heavy-duty fade and UV resistant polyethylene. Marking Discs feature cutouts for quick attachment to rope and posts, and black ink that won't easily scratch off or fade. Available in-stock in yellow and orange. WCS Marking Disc dimensions: .0625" gauge thickness x 9.5" diameter.

 $Signs for terrain park safety program \ backed \ by the \ National \ Ski \ Areas \ Association \ (NSAA). The \ NSAA \ Terrain \ Park$

Entry (TPE) sign is intended to identify the entrance to or access points into terrain parks and other Freestyle

Terrain areas. The sign measures 24'W X 48"H and is a vinyl print on .063 sheet aluminum ensuring durable outdoor performance. The TPE sign is printed with blank ovals and should be customized with the addition of

dye-cut lettering (SVL 100) to denote feature size. Letters are black and 3" in height for easy legibility. Each set of

lettering comes with one of each of the following: "XS", "S", "M", "L". The NSAA Freestyle Terrain Park Smart sign is

the second required sign for all parks and replaces dated slope style signs. The sign measures 36"W x 48"H and

Unique to the SPM/Italian Ski Instructors Federation (FISI) teaching concept is the use of team play and group activities. Having students participate in familiar games in a group setting allows them to interact and learn intuitively through play. In ski boots, using one ski, or two skis, the games allow beginners to become comfortable with their new equipment and develop balance and mobility skills. The games an easily be adjusted to match skill levels and group size.

Packages May Include:

- Start Mat
- Skier Archway
- Turning Brushes
- Colorful Responsive Obstacles
- Learning Mats
- Team Game Equipment

Ski School Learning Mats

Introduced by SPM at Interski in Ushuaia, Argentina, these innovative tools for teaching children fundamentals of movement on skis have been widely adopted in European ski schools. By following the "footsteps" on these durable, colorful teaching mats children will learn walking, side stepping and herringbone techniques for moving on snow. The mats are held in place by plastic stakes and can be configured several different ways in conjunction with other learning aids such as Fungos and Whisker gates. Create a fun and intuitive teaching environment that helps each child discover the joy of skiing. Mats are each 16.5' L x 3'W. Made in Italy.

Created in conjunction with the Italian Federation of Ski Instructors (FISI), the SPM Learning Center or Kindergarten concept focuses on learning through play.

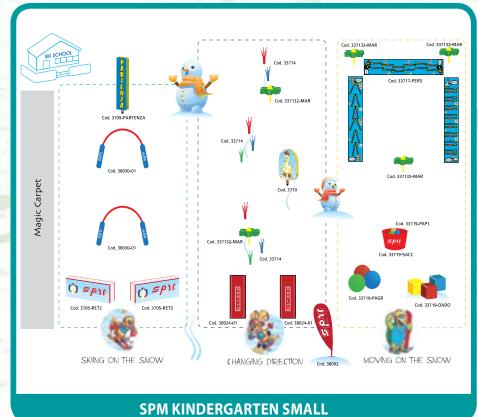

The process begins with activities to get the beginner comfortable moving on flat ground in ski boots with and without skis. The students are then introduced to straight line gliding and braking and develop those skills on a gentle pitch. The third phase utilizes activities and fun obstacles to teach the students how to change direction using a wedge and then progressing to direction change using parallel skis. Finally the basics of free skiing and racing are introduced.

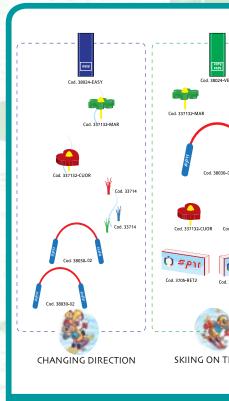

Three SPM Learning Center packages are available by special order in small, medium and large. Individual elements may also be purchased separately. Easy to maintain, set-up and store, the only requirement is your imagination in using these colorful, fun and safe tools to learn.

Allow 4-6 weeks for delivery.

WORLD CUP SUPPLY ORDERING INFORMATION

Shipping

WCS makes every effort to ship all orders within 24 hours. You will be notified when you place your order if there are any backordered items. WCS does not make substitutions for back ordered items. We ship all orders via FedEx Ground service unless otherwise requested. A physical address is requested for all shipments. Shipping charges are the responsibility of the customer and must be paid as part of the total order prior to shipment. Customers shipping to destinations outside the US are responsible for all import duty and taxes.

Canadian Orders

WCS ships to Canada via FedEx International Ground service unless otherwise requested. As a Non-Resident Importer into Canada, WCS will remit to Revenue Canada all duty, taxes and fees and will include these amounts (plus shipping) in the total balance of the invoice due prior to shipment. All WCS prices are expressed in US Dollars.

WCS ships worldwide!

Delivery charges vary when shipping to another country. Recipients are responsible for paying duties, taxes and customs clearance where required. We'll provide a quote in advance for product and shipping and prepare the required paperwork required for import upon invoicing. Call or e-mail for more information or a quote.

Utah Sales Tax

WCS maintains a physical presence in the form of fulfillment operations and equipment storage in Utah. For that reason we are required to charge sales tax for orders shipped to the state of Utah. Non-Profit organizations are exempt from sales tax.

Payment Terms/ Pricing

We accept VISA, MasterCard and American Express and offer terms with prior credit approval. A 100% deposit is required for custom orders prior to order production. All prices are subject to change without prior notice. Any pricing errors contained in the WCS catalog will be corrected at the time of the order. All prices are stated in US Dollars and all invoices are due and payable in US Dollars unless otherwise previously arranged.

Returns

Clean unused merchandise will be accepted for exchange or refund if returned within 15 days of the date of receipt of the order. Any returns must include an RMA (Return Authorization Number) issued by WCS. This number MUST appear on the outside of the package along with a copy of the original invoice and shipped pre-paid (we recommend insurance as well). Returns shipped to WCS without an RMA may be charged a \$75.00 restocking fee.

Returns must be shipped to: World Cup Supply, Inc., 226 Industrial Drive, Bradford, VT 05033

How to Reach Us

Phone: 800-555-0593 / 802-449-3103 Fax: 802-449-3104 email: info@worldcupsupply.com

Skiing, snowboarding and other winter mountain sports and activities are inherently dangerous and necessarily involve the risk of serious bodily injury or death. World Cup Supply does not represent, nor should any buyer expect, that the use of any World Cup Supply product will minimize the inherent risk associated with the sports and activities in connection with which such products may be used.

NOTICE:

All trademarks, registered trademarks, brand names, and products are the property of their respective holders. Not responsible for typographical errors. Prices subject to change without notice. ©2018 World Cup Supply, Inc.

- Gate hinges and bases carry warranty against breakage for a period of two years from the date of purchase.
- Gate shafts carry a warranty against breakage for a period of six months from the date of purchase.
- All other products sold by WCS carry a 100% satisfaction warranty. If the item purchased fails, does not perform to specification, or does not meet your expectations please call us (800-555-0593) and we'll work out a solution.

Any warranty returns of SPM hinges, bases and shafts shipped to World Cup Supply must be accompanied by a **Return Merchandise Authorization number** which is obtained by calling WCS (800-555-0593) prior to shipping the broken items back to us. If the broken items cannot be returned we may require photo documentation.

Broken shafts will only be replaced when lot numbers are provided (stamped into the top and bottom of each shaft). WCS maintains records of lot numbers for each shaft sold and will verify the age of the shaft prior to shipping replacements.
