

### *World Cup Supply Operations Update*

**Staff working remotely, hours for order fulfillment reduced.**

Like many of you reading this, we will be working remotely this week in the interest of our employees, customers, vendors and their families. During this time our order fulfillment operations in Bradford, VT and Salt Lake City, UT will be significantly reduced. We feel this is prudent based on the local, national and global situation. If you have a "rush" order we will try and accommodate you as needs arise.

We also are thinking of our friends and colleagues at SPM, Spa., US Ski & Snowboard, Alpine Canada Alpin and the NSAA as we all continue to do our collective part to respond to these unprecedented events responsibly.

If you need assistance you can message us here, email the rep you have been working with or send an email to [info@worldcupsupply.com](mailto:info@worldcupsupply.com)
